Sir,

Adverting to your letter No 11-18/L.S.G 8-16-1 dated 16th January 1917, regarding the question of modifying the existing system of Municipal taxation, I have the honor to submit herewith copies of the resolutions of the several Municipal bodies in the District (with the exception of Goribidnur and Malur) on the subject, from which it will be seen that all the bodies are of opinion that the existing system might be continued for the present.

2. In agreeing generally with the opinions expressed by the Municipal Councils and Boards on the subject, I beg to add that the existing sources of income, if properly supervised,

15

will materially improve the finances of these bodies and they should devote their attention first towards improving their existing income, in preference to levying fresh taxes, which are not likely to be received with favour by the people. The introduction of "Terminal" and "Professional" taxes in lieu of the "Octroi Duty" and the "mohatarfa" taxes can only be done after further investigation of local conditions.

S I R,

With reference to your letter No 11-18/L.S.G.8-16-1 dated 16th January 1917, I have the honor to state that the Municipal Councils and Boards who were consulted in the matter of improving the revenues of Municipalities, have offered no suggestions of importance.

As the income of Municipalities is derived from a few direct sources, I have to state that their income can only be improved by regular and systematic revision of house tax once in five years as new houses spring up and as the value of the buildings would increase from many causes. As a rule Municipal Councils are averse to revision of house tax and I think a general revision should be carried out periodically by Government agency whether the Municipality likes it or no. The Deputy Commissioner may be vested with this authority and duty. Only the taxation of new houses in the intervals between general revision should be left to the Municipality. The imposition of other taxes allowed under the existing Municipal Regulation should be insisted upon as far as possible The proper collection of the current demand may also go to better their financial position.

It is not possible to increase the Municipal revenue by

abolishing octroi and levying fresh taxes instead. It is on the other hand feared that it would be difficult to replace the income lost by the abolition of octroi by any other fresh source.

As the items of revenue are few, I have no further suggestions to offer which may tend to improve Municipal revenues.

I have the honor to be,

Sir,

In continuation of this office letter No. 169 dated 2nd instant regarding the modification of the existing system of Municipal taxation, I have the honour to state as follows -

1. The Municipal Board of Kadur are of opinion that a general revision of House and Shop taxes may be undertaken with a view to improve the resources so far as practicable

2 The Municipal Board of Koppa are of opinion that octroi at the rate of Rs 0-8-4 per 100 fresh cocoanuts, 0-4-0 per maund of dry cocoanuts and 0-8-0 per maund of tobacco may be levied on these articles sold in the Town

3. The Municipal Board of Mudigere and the Municipal Council of Nrarasimharajapura are not in favour of any modification of the existing taxes

4. The Municipal Council of Tarikere suggests that Octro may be abolished and replaced by terminal taxes

5 Their proposals are indifferent and cannot be approved Till definite proposals are formulated by the Municipal Councils of Tarikere with regard to the abolition of octroi and the introduction of terminal taxes, I am of opinion that the existing levy of octroi may be continued

(c) Chiknaikanhalli-Maddenmadu Road
8 Revival of the Mohatarfa taxes on looms or if this not possible levy professional taxes on all the weavers
9 Revision of house and shop taxes

Modification in the existing taxation is not feasible as taxes were revised in 1918-19.

Sira Municipality

		Pipkay	-do-	... Modification in the existing taxation is not feasible. Systematic arrangements are to be made for the collection of the existing taxes.
7.		Pavagada	-do-	... Recommends the levy of taxes on hides and skins, betel leaves, tobacco, cigars and bidis sold in shandies.
8.		Kunigal	-do-	... As the taxes have recently been revised, no modification is necessary.
9.		Koratagere	-do-	.. Recommends the revision of house taxation. If appreciable results cannot be arrived at, the question of levying tax on Kerosine Oil has to be investigated.
10.		Turuvekere	-do-	... Revision of house tax not recommended Recommends levy of taxes on head loads, hand loads, back loads and cart loads which come to the weekly shandy.

We the members of the Select Committee appointed to consider and report the measures that are necessary for augmenting the municipal revenue have the honour to submit the following the report to the Council - - - - - - - - -

The annual income of the municipality at present from all sources is about Rs 4000/- This amount is hardly sufficient for the bare needs of the ordinary every day purposes of the municipal administration Unless the annual revenue of the municipality is increased so as to have an effective surplus over the ordinary expenditure large works such as improved system of drainage, water supply, conservancy &c so essential for the wellbeing of the town cannot be brought into existence The present system of taxation was introduced a very long time ago Although the town has made considerable progress in front of we -

and resources since then no attempt has as yet been made towards a considerable increase in taxation In this report we briefly consider the ways by which the municipality can secure a substantial increase in its revenue without the same being unduly oppressive on the people - - - - - - - - - -

The sources of income to the municipality at present are as follows - - - -

I Mohalāfa

(a) House
(b) oil mills
(c) Shop
(d) Cart
(e) Shrigad vehicles

II Octroi tax

(a) cloth
(b) jaggory
(c) Betel leaves
(d) Tobacco
(e) Kerosene oil
(f) Sheep and goats

III Cattle Pound

IV Miscellaneous

(a) Mouse
(b) Vaccination
(c) Notice fees
(d) Other items.

We now take up these sources one by one for consideration :-

The house tax is now yielding about Rs 1400/- per annum. The house tax as imposed by the municipality seems to us to be unduly low and systematic action is necessary to revise the classification of houses and building with reference to their market value. The question of adopting Professional tax in place of the present tax was much discussed in the Municipal Conference and the proposal was carried by a large majority. The items (b) (c) (d) and (e) under the present tax are now yielding an income of about Rs 500/- per annum. These items while imposing a heavy burden on a few select trades secure out of consideration a large majority of people to [illegible] the [illegible] of com-

Lacking handsomely to the municipal
coffers. Although there are no data
at present available to show concisely
how far the adoption of Professional tax
in place of the above four items would
result in any appreciable increase of
revenue yet the imposition of Profession
tax will enable the municipality to
make at some sort of equality in
taxation which cannot fail to bring
about a substantial increase. The
schedule of Professional tax appended
to the Municipal Regulation requires
modification so as to be suitable to
the needs of the municipality. According
we propose that Profession tax be
substituted in place of b e d and e
under the Motor Cars and the Schedule
be changed in a manner suitable
for the needs of the municipality
for more come to Rs
Since more than 50% of the municipal
income is drawn from these sources,
the income from these sources will
further rise.

of Rs 3807/- It is frequently represented by the mercantile community that some substitute ought to be found for this tax on the ground that it is a serious burden [illegible] on free and unrestricted trade and also affords opportunities for fraud and oppression. The question of substituting a terminal tax in its place cannot be thought of as Maddapur is not situated on a Railway line. In view of the fact that this tax is an undue one and consequently not felt as a burden by the people and that it contributes a relatively large income any idea of abolishing it must be dismissed as impracticable. The difficulties above represented may be largely overcome by [illegible] some additional conveniences such as opening an octroi office in the centre of the town and [illegible] sufficient staff to attend to the merchants [illegible] any delays. This tax is sufficiently elastic and [illegible] provision is capable of

yield are from 100 to 200 per cent more revenue. To our mind it seems that the number of articles taxed are much fewer and the amount of duty imposed much less than is the case in most other municipalities. We propose that the following schedule which is on the lines with those of many other municipalities be adopted in this municipality

(1)	Cocoanuts fresh 100 —	0-8-4
(2)	do — dry for a maund of 40 seers	0-8-0
(3)	Betel leaves — 100	0-0-1
(4)	All kinds of oils except Kerosene for a maund	0-2-0
(5)	Areca nut for maund of 40 seers	0-8-0
(6)	Tobacco for maund of 40 seers	1-0-0
(7)	Kerosene oil per tin	0-2-0
(8)	Cigarettes and cigars for value of Rs 100/-	5-0-0
(9)	Sheep or goats per head	0-2
(10)	Piece goods or other textile fabrics (whether stitched or not) for value of Rs 100/-	1

The Mercantile Community have very frequently represented upon the existence of duty on Jaggery in this Town while the article is free from duty in Sirsa has diverted all supply from Gubbi to Sirsa and as a consequence the price of Jaggery has always kept up a very high level and serious shortage of Jaggery in the market is not unfrequently experienced in this Town on careful enquiry we are satisfied of the genuineness of the representation and have accordingly removed Jaggery from the list of dutiable articles and substituted in its place Arecanut - - - - - - -

In this connection we suggest that the Municipal Council should seriously consider the feasibility or otherwise of levying every year the revenue from octroi as a means of effecting a reduction in many lines, a reduction on the system of collection through the Municipal agency

Items III and IV call for no modification at present

We commend the following suggestions for improving the revenue to the consideration of the Council —

(1) The weekly shandy at Maddagiri may be improved and an annual fee of rangir from 8 as to 2 Rs may be levied on all persons who regularly open shops in the shandy (throughout the year) in the case of persons opening shops occasionally a small fee varying from 3 fies to one anna may be levied

(2) A slaughter house may be built and let out to butchers on suitable rents. Slaughter of animals anywhere outside may be prohibited

(3) In case the idea of leasing out the octroi revenue does not commend itself to the Council an octroi on

may be opened in the centre of the Petta which should be open for business at fixed hours every day. Four ookads may be built one for each of the four Main roads and a staff of five watchmen be appointed one for each of the four ookads and the other for the octroi office. The watchmen in charge of the ookads must generally examine each cart as it passes into the municipal limits and issue a pass to the cartman roughly noting down the quantity of dutiable goods. In the octroi office the contents of the cart must be carefully checked with the pass before receiving duties. We are confident that, if this system is introduced, smuggling will greatly diminish and there will be an increased growth of revenue under the head. The staff may be appointed temporary in the first instance and if the cost is justified by the increase in revenue

(10)

the power may be made permanent after a course of three years

(4) Government may be requested to transfer to the municipality the rents of excise shops situated within the municipal limits. The municipality can claim it as a matter of right. and the income from this source would consequently augment its revenues

Ref Tuamgraney District Board Planning Scheme No d 7-63 46-17 dy 24/1/17 in pursuance of Sec 12 of Govt Order dy 16/11/1916 for the modification of the existing system of the taxation for raising its Revenues

With reference to the above the undersigned begs to state that the matter was discussed at a Special meeting of the Municipal Board held on 4th inst.

Post 6-10-17

The Board are of opinion that, as there is great scope for each Municipal Body for augmenting the Revenues of its Municipality — by better and more systematic enforcement of the existing powers of taxation and by proper collection of its current demands, it is desirable if this is done and that no enhancement of the existing taxation or levy of tax on goods

Other than those that have already been taken are called for.

Copy of the resolution of the Board is herewith submitted for favour of kind perusal

To

Through ;-
The Deputy Commissioner,
Shimoga District.

Sir,

Adverting to Government Order No. 3005-55 Ml. 132-16-1 dated the 16th November 1916 regarding modifications in the existing system of Municipal Taxation with a view to improve the revenue, I have the honour to herewith enclose a copy of the resolution passed by the Shimoga Town Municipal Council in their meeting held on 24th November 1917.

It is proposed by the Council to abolish Octroi duty levied at present except on cloth and levy a terminal tax at the Rate of one anna per maund on all goods arriving by train at the Shimoga Railway station. This tax if permitted to be levied, will equalise taxation on goods and it will not weigh heavily on consumers. From figures of the last three years, it is observed that by the introduction of this proposed terminal tax coupled with a duty of 2 per cent on the value of cloth, the revenue of this Municipality will be improved to the extent of

nearly Rs.6,19,400/- per annum.

House tax in Shimoga Town has been at its maximum. This year water tax equivalent to 50 per cent of house tax is being levied. To meet the increased requirements of this Municipality i.e. repayment of loan and interest thereon proposed to be raised for the Drainage Scheme as also to meet the extra cost that will have to be met for the enlarged scheme of Water Supply to the Town, the Municipality propose to levy a Terminal Tax on all passengers alighting by train at Shimoga at 0-1-0, 0-0-6 and 0-0-3 on 1st, 2nd and 3rd class passengers respectively and holding a ticket of the free value of Re 0-8-0 and upwards. The Council propose that this taxation be levied through the Agency of the Railway.

The Council have not shown any reluctance to tax themselves. Shop and Mill taxes levied at present will be abolished and replaced by Professional tax as defined in section 59 of the Municipal Regulation No. 7 of 1906.

It has also been considered necessary to increase the registration fees on carts from Re 2 to 5/-.

The proposed abolition of tax of one anna per head of Sheep and goats will be compensated by the levy of slaughter house fees proposed to be levied.

The liability of the Council will be increased as shown below :-

(a) A loan of Rs 50,000/- for the Drainage Scheme of the Shimoga Town.

(b) A loan of Rs 45,000/- for the enlarged Scheme of Water Supply to the Town.

Provision will therefore have to be made for

repayment of loan in 25 years and for payment of interest on the above said loan at 6 per cent per annum.

Thus a sum of Rs 10,000/- will have to be set apart annually towards these loans. The revision of taxation as proposed above will, the Council hope enable them to meet the extra demands.

I therefore request you to kindly place this proposal before the Government and obtain their orders in the matter.

I have the honour to be,

(2) Octroi duty of Rs 2/- per cent on the value of cloth as levied at present be continued to be levied.

(3) A Terminal tax as noted below be levied on all passengers arriving at Shimoga by the Railway and holding a ticket worth R.I.R 0-3-0 and above.

(a) 1st class passengers. one anna.
(b) 2nd class passengers. half an anna.
(c) 3rd class passengers. one-fourth anna.

(4) Shop and Mill taxes be abolished and professional tax be levied.

(5) That in place of Octroi duty levied at present on sheep and goats, slaughter house fees be levied at one anna per head.

1 Read memo no C/1 120 dated 26.1.17 from the Deputy Commissioner, Ekkis for the opinion of the Council under paragraph 12 of the Govt. order no 3005.S Municipal 132-15-1 dated 16.11.16

Resolution

The majority of the members i.e all the non-official members present were of opinion that the municipal staff for collection of taxes and octroi is insufficient. The Sanitary Inspector is supposed to supervise the collection work which is done by the municipal Sanitary Inspector both for the town and the Cantt. very little attention is paid by him to the collection of municipal receipts including octroi. As there is no need to change the present rules and this by employing [illegible] a whole time assistant Sanitary Inspector for the town itself as already [illegible]

~~28th September 1932~~
The receipts of the Municipality could be enhanced & resolved as follows. –

(1) Not as the demand of the Municipality is Rs 2679/- under house tax and shop tax, and the arrears previous year at present is Rs 990/- it is necessary that arrangements should be made to collect municipal dues from and there

(2) The receipts from chai beiri Rs 1195 (the average of previous 5 years) there is scope to expect more provided there is sufficient staff for the purpose the appointment of an assistant Sanitary Inspector is necessary who will have enough work if he is made to supervise the collections as well as in addition to the sanitation work.

(3) That 3 Wards may be established with one watchman in each Ward under the supervision of the assistant Sanitary Inspector

Continued on next page

(8) That the municipal Chairman and Patel who now are attending to the municipal Collections should be made to work under the assistant Sanitary Inspector.

9. Further it was resolved that the Doddaballapur Railway Station be included in the municipal limits.

That the house tax and Shop tax be revised but there is no prospect of expecting a good income from such revision

The Official members present have no objection for the levy of professional tax
